

THE MID-STAGE REVENUE CYCLE, REIMAGINED

The Only CDI Platform Natively Embedded in Epic

Accurate medical records that improve documentation integrity, scale CDI productivity, and protect revenue across inpatient, ED, ambulatory HCC, and peri-operative care.

MID-STAGE REVENUE CYCLE PRODUCT OFFERINGS

HITEKS offers two mid-revenue cycle (RC) solutions powered by its Epic-embedded, AI-driven CDI Agents: (1) Epic/HITEKS CD (physician-facing) and (2) Epic/HITEKS CDI (CDS-facing). The HITEKS AI CDI Agents autonomously analyze every encounter to surface CDI nudges for Physicians and CDI Specialists. These offerings can be deployed as a seamlessly integrated platform or licensed separately to address specific organizational needs..

NATIVELY EMBEDDED IN**Epic**

Runs inside Epic's NoteReader CDI module and Diagnosis Aware Notes. The only mid-stage revenue cycle vendor with this integration.

POWERED BY HITEKS AI**Sage360****Mid-Stage Revenue Cycle Platform**

CD and CDI Agents prompt providers in real time and deliver ready-to-send CDI suggestions to specialists for 1-click review.

**CLINICAL INTELLIGENCE****Dr Hoo****AI Reasoning Engine**

The reasoning layer behind every query: compliant, evidence-linked, and built for legal defensibility.

HEALTH SYSTEM IMPACT AND VALUE PROPOSITION

Epic/HITEKS solutions can elevate and supercharge CDI programs, transforming mid-revenue cycle performance and driving significant improvements across key performance indicators (KPIs). These performance gains strengthen revenue integrity, reduce revenue leakage, and improve quality integrity and risk-adjustment outcomes. The resulting revenue improvements contribute directly to net profit, while quality gains help strengthen organizational reputation and improve industry rankings.

ENGAGEMENT >90%	DIAGNOSES COVERAGE 90%	PRODUCTIVITY Δ 100% - 400%	ACCURACY 95% - 99%
DENIALS PREVENTION 80%	REVENUE IMPACT \$10M - \$50M	QUALITY IMPACT Δ 30% -> 90%	ROI 10X - 20X+
COST SAVINGS 70% - 80%	COMPLIANCE 100%	PRODUCT MATURITY 6+ years	IT IMPACT Negligible
AUTOMATION LEVEL up to 95%	CDI CAPACITY Δ 5 - 40 FTE CDS	MISSED CDI OPPORTUNITIES 20% - 60% fewer	

Compared with competing solutions that integrate with Epic but operate outside native Epic workflows, Epic/HITEKS CD and CDI deliver superior performance across virtually every key evaluation criterion. Key advantages include enhanced usability, higher provider and CDS engagement, broader diagnosis coverage, greater productivity, lower IT impact, higher levels of automation, expanded CDI capacity, and significantly fewer missed CDI opportunities.
